Skorne: Reptile Hounds

Contains one unassembled and unpainted model.

Since the skorne arrived in western Immoren, countless warriors and slaves have met their ends in the slaving jaws of a pack of reptile hounds, vicious pack hunters that the skorne enjoy setting upon lone warbeasts and enemy champions. Many foes have been demoralized after seeing their mightiest heroes or greatest beasts torn to pieces by a pack of these scaled predators. Even the most resilient creatures often find their natural powers of regeneration no match for the crushing strength of a reptile hound's jaws; a pack of them working in concert can swiftly reduce even a hulking satyr to a pile of bloody bones.
